DDUGJY in Meghalaya – Award of Un-electrified villages

Dear Sir,

As you are kindly aware that Secretary (Power), Government of India has been reviewing, among other things, village electrification under DeenDayal Upadhyaya Gram Jyoti Yojana (DDUGJY) in the Review, Planning and Monitoring (RPM) Meetings being held every month. Further, the progress of village electrification is being reviewed through e-Samiksha at PMO level and also at PMO level.

While the Govt. of India is determined to electrify all remaining unelectrified villages in the country by 31st December 2016 on Mission Mode, it may be mentioned that in Meghalaya State, award is yet to be placed for 340 unelectrified villages to be electrified through Grid and for 212 unelectrified villages to be electrified through off grid solutions.

I therefore request you to kindly review the status of award of villages at your personal level and advise the officers concerned to award works by May, 2016 so as to electrify these villages and achieve the set targets of Ministry of Power within the timelines.

With kind regards,

Yours sincerely,

(Dr. Dinesh Arora)
